Thirteenth Week of Ordinary Time

Today we are invited to marvel at one of the most dramatic and amazing of the Lord's miracles - the raising back to life of the daughter of Jairus. The story is told with a level of emotional realism: the calm faith but dreadful fear of Jairus, the servants who bring the news of his daughter's death, the calm reassurance of Jesus and even the laughter of the servant who mock Jesus; all these make this a story that can engage us and speak to us. And what it says is something profound: all the miracles of the Lord proclaim the Kingdom of God - the world the way God wants it to be. God does not want us to die: death is not part of God's plan for us. This is reinforced by the unfamiliar first reading from the book of Wisdom, which opens our listening to God's Word today with the dramatic phrase: "Death was not God's doing." God created us to live forever, and the raising of Jairus' daughter to life is a vivid and outstanding proclamation of this truth.

Marriage Matters

The triumph of love over fear: The love that a married couple have for one another gives them the strength to overcome together the situations that occur in their life. Whether it is illness, difficult relationships with children or parents, unemployment, work issues or financial worries, Jesus tells us not to be afraid but to trust and have faith in each other and in Him.

Think Vocation

We pray to the Lord for the faith to accept the healing power of Jesus, who wants to remove every obstacle to the response of men and women chosen to follow Him as priests, deacons, sisters and brothers.

Faith and Science: An opportunity to discuss the relationship between faith and science. From Faith to Experience: taking a further look at natural theology. Our starting point will be the comment made by Cardinal Newman: "I believe in design because I believe in God; not in a God because I see design." We will consider how Alister McGrath and John Polkinghorne have developed a natural theology, which moves from God to man rather than in the reverse direction. We will conclude by exploring Polkinghorne's thinking about science and the Trinity utilising such an interpretative framework. All welcome

References: Over the course of a year I receive a good number of requests for job references. I am always happy to supply these as part of the recruitment process. However, lately I have received a number of such requests for people whose names I do not recognise. When this happens, I can only respond to the school to say that I am unable to help. I do point out that I might know the person by sight but not their name and so, if the school is interested in appointing them, they should ask the applicant to make themselves known to me. If you do want me to supply a reference for a job, please contact me either in person or by contacting the parish office. Thank you. *Fr Parkinson*

Hope in the Future for Schools - Beacons of Hope

On Tuesday 26th June 2018, Hope in the Future was launched in all of our diocesan schools and colleges at an event which celebrated the gifts and talents of children and young people. This year's theme was Developing Parish Communities: 'Beacons of Hope'. Those present were invited to explore the ideas that surround the '7 steps' from school to parishes. These steps aim to promote the closer involvement of our schools and young people in parish life.

The day finished with a 'Liturgy of Mission' led by Bishop John who reminded all present that we are all ambassadors of Christ with our own purpose to fulfil. He went on to talk about the connectedness of Parishes and Schools, and that together, we can do great things to bring the energy of the gospel to life as missionary disciples. To evidence the link between our parishes and schools, each school was presented with a blessed framed San Damiano Cross and prayer cards. On returning to school the Chaplaincy Teams launched Hope in the Future in their school communities and started looking at ways to work more closely with their parish. All three of our primary schools and Thornleigh were all in attendance at this event.

Below is a brief summary of the *7 Steps from School to Parish* from the Developing Parishes framework:

STEP 1 - LINKING WITH THE COMMUNITY - This step is designed to enable schools to have a close contact with their parish even though they may be geographically at a distance.

STEP 2 - TAKING AN ACTIVE ROLE - The appropriate activities of Step 1 can continue. In this step the pupils take a more active role in the life of the parish community.

STEP 3 - UNDERSTANDING PARISH STRUCTURES - This step aims to help the young people get to know and understand the structure of the parish and how it works.

STEP 4 - TAKING A LITURGICAL LEAD - This step looks at ways in which the pupils might lead aspects of the liturgical life of the parish.

STEP 5 - LEADING PRAYER - This step focuses on the pupils leading and facilitating new initiatives in the prayer life of the parish.

STEP 6 - FOSTERING SPIRITUAL GROWTH - This step looks at fostering the growth of young people in the parish by inviting them to be part of the Parish Council.

STEP 7 - JOINING THE TEAM - Joining the "Hope in the Future" parish team (along with a parent).
